

N4 Driver - Tiger TMS

TIGERtms

Description

The Tiger TMS driver allows access to the room occupancy data available within the Tiger TMS iLink Cloud Dashboard.

Tiger TMS iLink is compatible with over 100 Property Management Systems (PMS) used within the hospitality industry.

The interface allows room occupancy states to be learnt and polled at a regular interval. The room occupancy states can then be used to further integrate systems within a building to achieve optimal energy efficiency. For example:

- Lighting Control
- Air Conditioning Control
- Heating Control
- General Energy Reduction

Tiger TMS system should be fully configured and working before starting the Niagara integration.

The Niagara device (Controller / Web Supervisor) will require an outbound internet connection to connect the Tiger TMS.

- Secure Cloud Connection
- Discovery of all Rooms / Locations
- Discovery of all Rooms / Location Occupancy States
- Licence packs to suit every project
- Requires Global Capacity Point Licenses

Specification

Niagara 4 Support	Niagara 4.10 Niagara 4.11 Niagara 4.12 Niagara 4.13
Platform Support	Web Supervisor JACE8000 JACE9000 Tyrrell eBMS IoT Range Honeywell CIPer ISMA MAC36 Lynxspring EDGE 534 / 514 Phoenix Contact ILC
Brand Support	Tridium / Centraline / Distech / Honeywell / JCI / Schneider / Trend
License Options	Room Occupancy Points Requires Global Points*
Software Maintenance	All new purchases support the current release and next release of Niagara 4

Supported Property Management Systems:

Abacus 21	GEAC	Medallion (Sulcus)	Rezlynx Legacy (Guestline)
AIDA.X	Galaxy Lightspeed	Medialog	RMS
Alacer	GuestCentrix (CMS)	Meditech	Room Key
Amadeus	Guestpoint	Mews Hospitality Cloud	RoomMaster (InnQuest)
Apaleo APP	Hart	Millennia	Sandersons
Aremis	HIS	MisterBooking	Shiji Enterprise
ASA Hotel	Host	MSI Solutions	Shipstar
AUB	HotelCube	New Hotel	SiHot
Avalon	Hotel Executive (Avondata)	Newbook	Skyware
Bedzzle	Hotsoft (Hoist)	Nuconga	Spectra
Carahost	Hotelogix	OnQ (Hilton)	Suite 8 /Hotel 8 (Ericsoft)
Champs	Hotix	Optima (Silverbyte)	Scrigno (GPDati)
Clarity	IBS	Oracle Hospitality Suite 8	SynXis
Clock+	IDPMS (Brilliant)	Oracle Hospitality OPERA PMS (>= Ver. 4.x)	Property Hub (Sabre)
